hydrobiologia volume 288 (1994), contents

no. 1

E. Kebede, Z. G.-Mariam & I. Ahlgren: The Ethiopian Rift Valley lakes: chemical characteristics of a salinity–alkalinity series 1

E. Kebede & A. Belay: Species composition and phytoplankton biomass in a tropical African lake (Lake Awassa, Ethiopia) 13

C. J. Veltkamp, J. C. Chubb, S. P. Birch & J. W. Eaton: A simple freeze dehydration method for studying epiphytic and epizoic communities using the scanning electron microscope 33

J. W. McCreadie, P. H. Adler & E. C. Masteller: Long-term emergence patterns of black flies (Diptera: Simuliidae) in northwestern Pennsylvania 39

T. D. Shahady & G. W. Redfield: Relative effects of *Daphnia* and *Ceriodaphnia* on phosphorus–chlorophyll relationships in small urban lakes 47

N. Sugiura, Y. Inamori, Y. Hosaka, R. Sudo & G. Takahashi: Algae enhancing musty odor production by actinomycetes in Lake Kasumigaura 57

no. 2

Y. J. Bae & W. P. McCafferty: Microhabitat of *Anthopotamus verticis* (Ephemeroptera: Potamanthidae) 65

F. Villate: Temporal variability of the spatial distribution of the zooplankton community in a coastal embayment of the basque country in relation to physical phenomena 79

J. De Manuel: Taxonomic and zoogeographic considerations on Lecanidae (Rotifera: Monogononta) of the Balearic archipelago, with description of a new species, *Lecane margalefi* n.sp. 97

E. I. Meyer: Species composition and seasonal dynamics of water mites (Hydracarina) in a mountain stream (Steina, Black Forest, southern Germany) 107

E. N. dos Santos Silva, F. K. Kakkassery, S. Maas & H. J. Dumont: *Keraladiaptomus rangareddyi* a new genus and new species of Diaptominae (Copepoda, Calanoida, Diaptomidae) from a temporary pond in Mattam, Kerala State, India 119

L. A. Stepanova: *Arctodiaptomus* (Arctodiaptomus) *naurzumensis* n.sp. (Copepoda, Calanoida) from north Kazakhstan 129

Announcement: Creation of the Canopy Research Network 135

no. 3

V. E. Steenkamp, H. H. du Preez, H. J. Schoonbee & P. H. van Eeden: Bioaccumulation of manganese in selected tissues of the freshwater crab, *Potamonautes warreni* (Calman), from industrial and mine-polluted freshwater ecosystems 137

J.-S. Ho & W. Yoosukh: *Ostrincola humesi* sp. nov., a myicolid copepod (Poecilostomatoida) parasitic in rock oysters cultured in the Gulf of Thailand 151

R. J. Craggs, P. J. McAuley & V. J. Smith: Batch culture screening of marine microalgal nutrient removal from primary sewage effluent 157

R. W. Sanders, D. A. Leeper, C. H. King & K. G. Porter: Grazing by rotifers and crustacean zooplankton on nanoplanktonic protists 167

Ph. Mourguiart & P. Carbonel: A quantitative method of palaeolake-level reconstruction using ostracod assemblages: an example from the Bolivian Altiplano 183
